3. Insert 3 1/2" x 5/16" carriage bolts thru platform and extension arms.

4. Place handrails over carriage bolts that protrude from bottom of extension arms as shown and secure with 5/16" lock washer and 5/16" nut.

5. Tighten securely.

6. Install four 1" plastic caps in tube ends.

7. Ladder with platform is now ready to be installed into ladder brackets on tower ring.

8. Slip tubing from ladder into tubing of bracket and align holes. Secure with two 2 1/2" x 3/8" bolts, lock washers, and nuts (these bolts are part of the ladder assembly kit).
